Route UU is Southeast of the exit. The Extension Center is the first Building on the left on UU.

Change of Plans!!!!

Can you provide a temporary foster home for some of Julia's daylilies?
If so, come to the Columbia Mall on the dates listed.

April 26th, 2:00 – 3:00

at the Columbia Mall where the Boone County Farmers Market usually meets – on the East Side by the former Sears wing, now a Dillards.

May 3

at the same time and place if more plants are available

Full report on Julia Semon's daylilies:

Charlene Larkin, Joan Goodwin, and Debbie Nix have been in contact with the people who bought Julia Semon's home and have begun digging daylilies there. We are calling on all CMDC members, with space and willingness to do so, to house these flowers until fall. We want to save these for the Farmer's Market sales in late August, or longer if we are not through this epidemic by then.

We will create a system where members drive up one at a time in their car and take what they can; that way we will still do the social distancing required. This will save some members from driving all the way out to Julia's and everyone would still be helping the club by housing these plants.

Charlene reported that Duane and Stephanie (from Julia's) have had family members digging some flowers, too, so there aren't as many as there once were.

Requirements for fostering these flowers:

Space to keep them over the summer (at least)

Ability to label the flower to preserve the name

Willingness to dig them up when/if the next Farmer's Market sales are scheduled

Time to come pick up the flowers on 4/26 or 5/3

See you there!

President's Report

Hello everyone,

I am so grateful for all the members who step forward and do what needs to be done! Please join in to pick up daylilies on the dates mentioned. We have cancelled our May 2 club dig and the May 9 Farmer's Market sales due to the on-going health concerns. We are still considering whether or not to go ahead with the Daylily Show on July 11.

I encourage all of you to mail in your Region 11 ballot by June 1. Contact Steve Amy, the Nominations Chair at sjamy2525@gmail.com if you have misplaced your ballot. Nancy Rold, who was the candidate for Region 11 President, has had to withdraw and I have agreed to be the candidate for Region 11 President. This means that I am actively recruiting people to take over as CMDC President. We have a good group that knows what to do and goes ahead and does it, so the job of president is mainly one of coordination and reminding people of deadlines. Contact me if you want more information and encouragement to step forward and take your turn!

Daylilies for drawings

The Bachman daylilies that we will use for our door prizes this year are shown in this newsletter. My idea for the April/May drawing is to have all those who take some of Julia's daylilies to keep over the summer, and all those who helped dig, will be entered into a drawing for April.

<p style="text-align: center;">Lonnie Mack</p> 	<p>Dan Bachman Daylilies Valley of the Daylilies https://valleyofthedaylilies.com CMDC will give away 2 plants each meeting – one plant per person in the 12 month period.</p>		
<p style="text-align: center;">Peepin' and Hidin'</p> 	<p style="text-align: center;">Saturday Night Fish Fry</p> 	<p style="text-align: center;">When Clowns Go Bad</p> 	<p>Karalee by Scott Keller – won by Kay Kern at Feb meeting</p> 
<p>Blind Willie McTell</p> 	<p style="text-align: center;">Katelyn Lillie Bachman</p> 	<p style="text-align: center;">Nancy Jones Sippel</p> 	<p>Marry Me Kate by Scott Keller – won by Debbie Nix at Feb meeting</p> 

BLIND WILLIE MCTELL 40" 6.5" Sev M 3 way branching, 25 buds. Diploid. Willie McTell is my favorite old acoustic blues man, not really a Delta player as he performed mostly in the Atlanta area. This is a sibling to CHASIN' THE BIRD, a 2018 introduction. The flower is corn yellow with brushed rose segments and darkerstippled chevrons. It has a deep green throat turning to chartreuse as it flows out on the petals. Fertile both ways. [(HUMMINGBIRDS ON VACATION X WHEN CLOWNS GO BAD) X BONELESS CHICKEN RANCH] \$75.00

BALLIN' THE JACK (Bachman 2014) 35" 7" L SEV Dip 5 way 35 buds, bud builder. Crispate UF. One of several late bloomers introduced this year, BALLIN' THE JACK is a very pretty light rose with darker chevron halo and chartreuse throat. Fertile both ways. Pedigree is a long line involving mostly Bachman genetics. {SIXTY MINUTE MAN X [(MULE EARS X SERGE RIGAUD) X KACHINA DANCER]} X EAT OUR WAKE PINTAHEADS \$100

DIXIE FRIED (Bachman 2014) 34" 9" EM DOR 3 way 19 buds Tet Spider 4:1 This is an old Sun Records standard done by Carl Perkins, covered by about everybody since. DIXIE FRIED is a 4:1 tet spider, a bright scarlet red with very large yellow gold throat. We got this early midseason bloomer by combining the best of Stamile genetics with our own lines, an experiment that has paid off well. Very reluctant pod setter but good pollen. {WEB BROWSER X [AABBA X (KLAATU BARADA NIKTO X SWIRLING SPIDER)]} " Let's all get Dixie Fried"

FEAST OF THE MAU MAU (Bachman 2015) 48" 8" EM SEV DIP Crispate UF. This violet red with huge green yellow throat is a consistent rebloomer here in Southwestern Ohio. It is informal as the segments not only pinch but sepals curl and twist. Scapes have 3 branches with 18 buds. FEAST OF THE MAU MAU is a song on the incomparable Screamin' Jay Hawkins album "What that is". [(CAPULINA X MIGHTY HIGHTY TIGHTY) X THE HEIGHT OF DISCOVERY] " Cut the fat off the back of a baboon..."

GIMME A PIGFOOT (Bachman 2013) 41" 5" M SEV Dip 4 way 42 buds. Another from our line of small but tall UFs is this grape purple with white midribs and chartreuse throat. It actually does not consistently give UF characteristics, so it is registered as a small flower. GIMME A PIGFOOT was a Bessie Smith standard and covered nicely by Laverne Baker. As a seedling it garnered a JC Award. It is fertile easily both ways and a sib to both STUPID CUPID and STRAIGHT NO CHASER. [(ITSY BITSY SPIDER X UNK) X CRYSTAL BLUE PERSUASION] " and a bottle of beer"

KATELYN LILLIE BACHMAN (Bachman 2012) 39" 6.5" ML SEV Diploid. Named for our first granddaughter who entered this world 4 weeks early. This daylily garnered a junior citation for 2012 and has received many comments from garden visitors. KATELYN LILLIE BACHMAN is a Cascade UF with 23 buds on 4 way branched scapes. The color is a violet purple with darker veining, a large chartreuse throat and light modribs. Pod fertile but not easy. Another winner from GAIL BRAUNSTEIN breeding. (GAIL BRAUNSTEIN X (SDLG X LOOK HERE MARY)) X (MADE IN DIXIE X BIG ROSS).

LONNIE MACK (Bachman 2016) 39" 7" M DOR Tetraploid. This introduction was runner up in the Region 2 Englerth Bed in 2015. The blooms are raspberry red with darker raspberry veining, white midribs, slight gold hacksaw edge, gold throat and green heart. Quite fragrant and fertile with 5 way branching and 32 buds. Another intro out of the SUSAN RUOFF line. Named after the legendary blues guitarist who passed away in 2016. DANDY DAVE X SUSAN RUOFF "That Wham of a Memphis man"

NANCY JONES SIPPEL (Bachman 2014) 45" 7.5" M SEV DIP This extra large flower is one of the most beautiful blooms we have, to date, released. It is a fuchsia pink with yellow green throat and won a Junior Citation for 2014. The 30 buds are held on 4 way branched scapes. Nancy has been a dear friend for about 30 years. Nancy is known for writing her ongoing play, "Above the 38th Parallel", a one woman narrated play focusing on the daily trials of Multiple Sclerosis. Watch for it to be produced in your area. [SIXTY MINUTE MAN X (SUZY CREAMCHEESE X BIG ROSS)] X (GRENADIER GUARD X MASCARA SNAKE).

PEEPIN' AND HIDIN' (BACHMAN-2012) 55" 9" ML SEV Diploid. Performance is the key to this 4:1 spider. My largest bloom of this year's intros (9") has 4 branches with 25 buds. PEEPIN' AND HIDIN' reblooms consistently with numerous proliferations. It is a bright orange with darker veins and red orange chevrons, lighter midribs and gold green throat. Fertile both ways. (((SPINNING SPANN X SUZY CREAM CHEESE) X JOHN SHEEHAN) X ((CURLY ROSY POSY X EARL OF WARWICK) X BELLY BUTTON SLIPKNOTS)).

PEEPIN' AND HIDIN'(BACHMAN-2012) 55" 9" ML SEV Diploid. Performance is the key to this 4:1 spider. My largest bloom of this year's intros (9") has 4 branches with 25 buds. reblooms consistently with numerous proliferations. It is a bright orange with darker veins and red orange chevrons, lighter midribs and gold green throat. Fertile both ways. (((SPINNING SPANN X SUZY CREAM CHEESE) X JOHN SHEEHAN) X ((CURLY ROSY POSY X EARL OF WARWICK) X BELLY BUTTON SLIPKNOTS)).

SATURDAY NIGHT FISH FRY (Bachman 2015) 45" 7.5" ML SEV DIP Cascade UF. Light plum mauve with darker plum chevrons and green yellow throat, white midribs run down the petal length. This fast increaser has 25 buds on 4 way branched scapes. Fertile both ways. Another intro in the long line from GAIL BRAUNSTEIN breeding.

SATURDAY NIGHT FISH FRY is a standard in the R&B music field with groups such as Louis Jordan and Lambert, Hendricks and Ross doing it justice. [GAIL BRAUNSTEIN X (BEAUTIFUL EDGINGS X JAN'S TWISTER)] X PAINTED BUNTING. "Don't ever mention a fish to me"

When Clowns Go Bad (Bachman, 2008) height 36", bloom 7", season EM, Semi-Evergreen, Diploid, 20 buds, 4 branches, Red purple with dark purple eye above green throat

Loss of Some Dear Friends

Greg Pezold

Our dear friend and faithful club member, Greg Pezold passed away fairly suddenly at Boone Hospital on April 16. His genuine smile and joyful outlook will be greatly missed at our meetings. I never made it out to see his garden but imagine it was quite lovely given how active a buyer he was at our club auctions!

I can only imagine the reunion he and Bob McConnell are having now. Can you hear the laughter?

From the obituary:

Gregory was a member of Our Lady of Lourdes Catholic Church and was a Fourth Degree Knight of Columbus. Blessed with a green thumb, he enjoyed tending to flowers as was evident in his work at McConnell's Plantland. He was most recently employed at Columbia Manor. Gregory was a member of Central Missouri Rock and Lapidary Club and Day Lily Club. In his spare time, he enjoyed hunting and fishing.

Graveside services will be held at a later date at Calvary Cemetery in St. Louis.

Memorial donations are suggested to Our Lady of the Holy Cross in St. Louis, c/o Maupin Funeral Home, 301 Douglas Boulevard, Fulton, MO 65251.

Condolences may be left for the family on this site:

Judie Branson

Judie Branson, former ADS President and our speaker a few years ago has passed away. She was a great collector of the Siloam daylilies hybridized in Arkansas by Pauline Henry. This sweet lady made many friends in Region 11 by regularly attending both summer and winter regional events. She was from Springdale, Arkansas and died Sunday, April 19th, 2020. Graveside Services were held Wednesday, April 22nd, at Salem Lutheran Cemetery in Springdale.

Condolences may be left online at www.westfieldchapel.com

Editor's Note

While I had been looking forward to running for President of Region 11, I had to pull out suddenly and put family first when my sister-in-law was diagnosed with an aggressive cancer. She and her dependents will need a lot of my support. I did not want to give less than my best to the region. I know that Carol will serve extremely well in that capacity! Please cast your votes for her as directed.
